

FIBER OPTIC CABLE DISTRIBUTOR

DIAMOND Splice closures are available in four sizes and offer the highest protection class – IP68. The robust housing is made from black shock-resistant plastic and ensures easy installation. The integrated pressure value allows overpressure to be generated inside the Splice closure depending on its use. This keeps out dirt efficiently and also protects the housing from pressure applied from the outside.

The cover comprises different sections which are easy to remove and replace again individually.

The smallest Splice closure offers space for up to four splice trays, the largest up to 48 splice trays each with 12 splices. The interior of the Splice closure provides sufficient space for optimal fibre management.

A wide range of cable entry flanges are available in various sizes. The individual cable entries serve to relieve strain being exerted on cables on the one hand and ensure an optimal seal without damaging the fibre-optic cables on the other.

FEATURES

- ▶ Wall mounting possible
 - Splice closure size 0: Attachment integrated
 - Splice closure sizes 1–3: Using an optionally available wall fixing bracket
- ▶ Flexible components
- ▶ Can be equipped with individual splice trays (shrink, ANT or combined for splitters)
- ▶ Individual cable entry flange and cable entry bush
- ▶ Available sizes:
 - 0 to 4 splice trays
 - 1 to 12 splice trays
 - 2 to 28 splice trays
 - 3 to 48 splice trays
- ▶ Possibility of leak tests with up to 500 mbar for a max. duration of 15 minutes

SCOPE OF DELIVERY

- ▶ Splice closure closed incl. blanking plug
- ▶ Splice trays as required
- ▶ Various cable entries as required

TECHNICAL SPECIFICATIONS

- ▶ Dimensions (LxWxD):
 - Size 0: 240 x 230 x 90 mm
 - Size 1: 335 x 204 x 92 mm
 - Size 2: 520 x 341 x 154 mm
 - Size 3: 661 x 341 x 154 mm
- ▶ Protection class: IP68
- ▶ Material: Plastic (RoHS compliant)

Cable entry variants (it must be ordered separately)

- | | | | |
|--|--|---|---|
|  | For individual cables Ø 3–7 mm
Art. Nr. 1082207 |  | For double/loop entries Ø 5–20 mm, art. no. 1072931
(also suitable for 2x individual cables Ø 4–12 mm, art. no. 1068801) |
|  | For individual cables Ø 3.5–9.5 mm
Art. Nr. 1069639 |  | For double/loop entries Ø 5–27 mm, art. no. 1072932
(also suitable for 2x individual cables Ø 5–18 mm, art. no. 1068800) |
|  | For individual cables Ø 4–12 mm
Art. Nr. 1068801 | | |
|  | For individual cables Ø 5–18mm
Art. Nr. 1068800 |  | For double-/ loop entries Ø 6–18mm, art.-no. 1079730
(also suitable for individual cables Ø 4–12 mm, art.-no. 1068801) |
|  | For multiple entry 4x Ø 7 mm
Art. Nr. 1067941 | | It is important together with this double/ loop entry (6-18mm)
to order also one of following four cable entry seals: |
|  | For multiple entry 4x Ø 4 mm
Art. Nr. 1076965 | | Double cable entry seal for cables Ø 6–9mm,
art.-no. 1082203 |
|  | For multiple entry 7x Ø 5.5 mm
& 16x Ø 3.3 mm
Art. Nr. 1067943 | | Double cable entry seal for cables Ø 9–12mm,
art.-no. 1082204 |
| | | | Double cable entry seal for cables Ø 12–15mm,
art.-no. 1082205 |
| | | | Double cable entry seal for cables Ø 15–18mm,
art.-no. 1082206 |
